Coming September 17

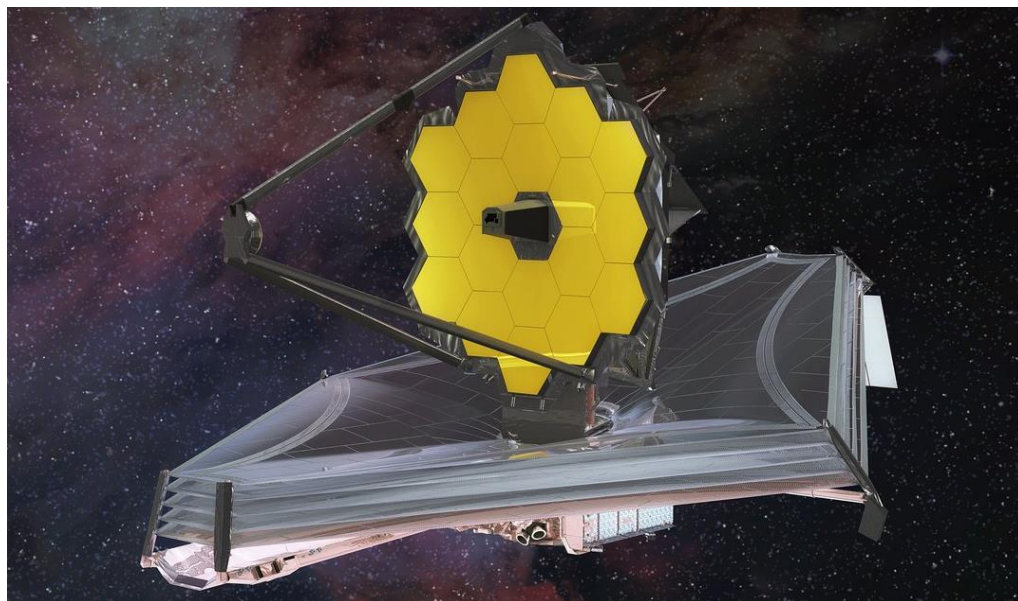

Pat Carey

Vietnam Gunship Pilot
1st Air Cavalry

I Corp Secret Special Operations Group

How the James Webb Telescope enables us to look into the past

Debra Simmons, Observatory System Engineering Lead for Northrop Grumman, was responsible for ensuring that all the requirements for the observatory system were met in the design and construction of the telescope. Clearly, her efforts and those of her team, were successful because the system is now deployed and doing a superb job. Please join us to hear the story of this amazing space observatory and the exciting scientific future that it promises.
